# LIFE CYCLES OF LEADERSHIP AND ORGANIZATION

# First, A Word about BIG Cultures and Leadership Styles Through the Organization Life Cycle.

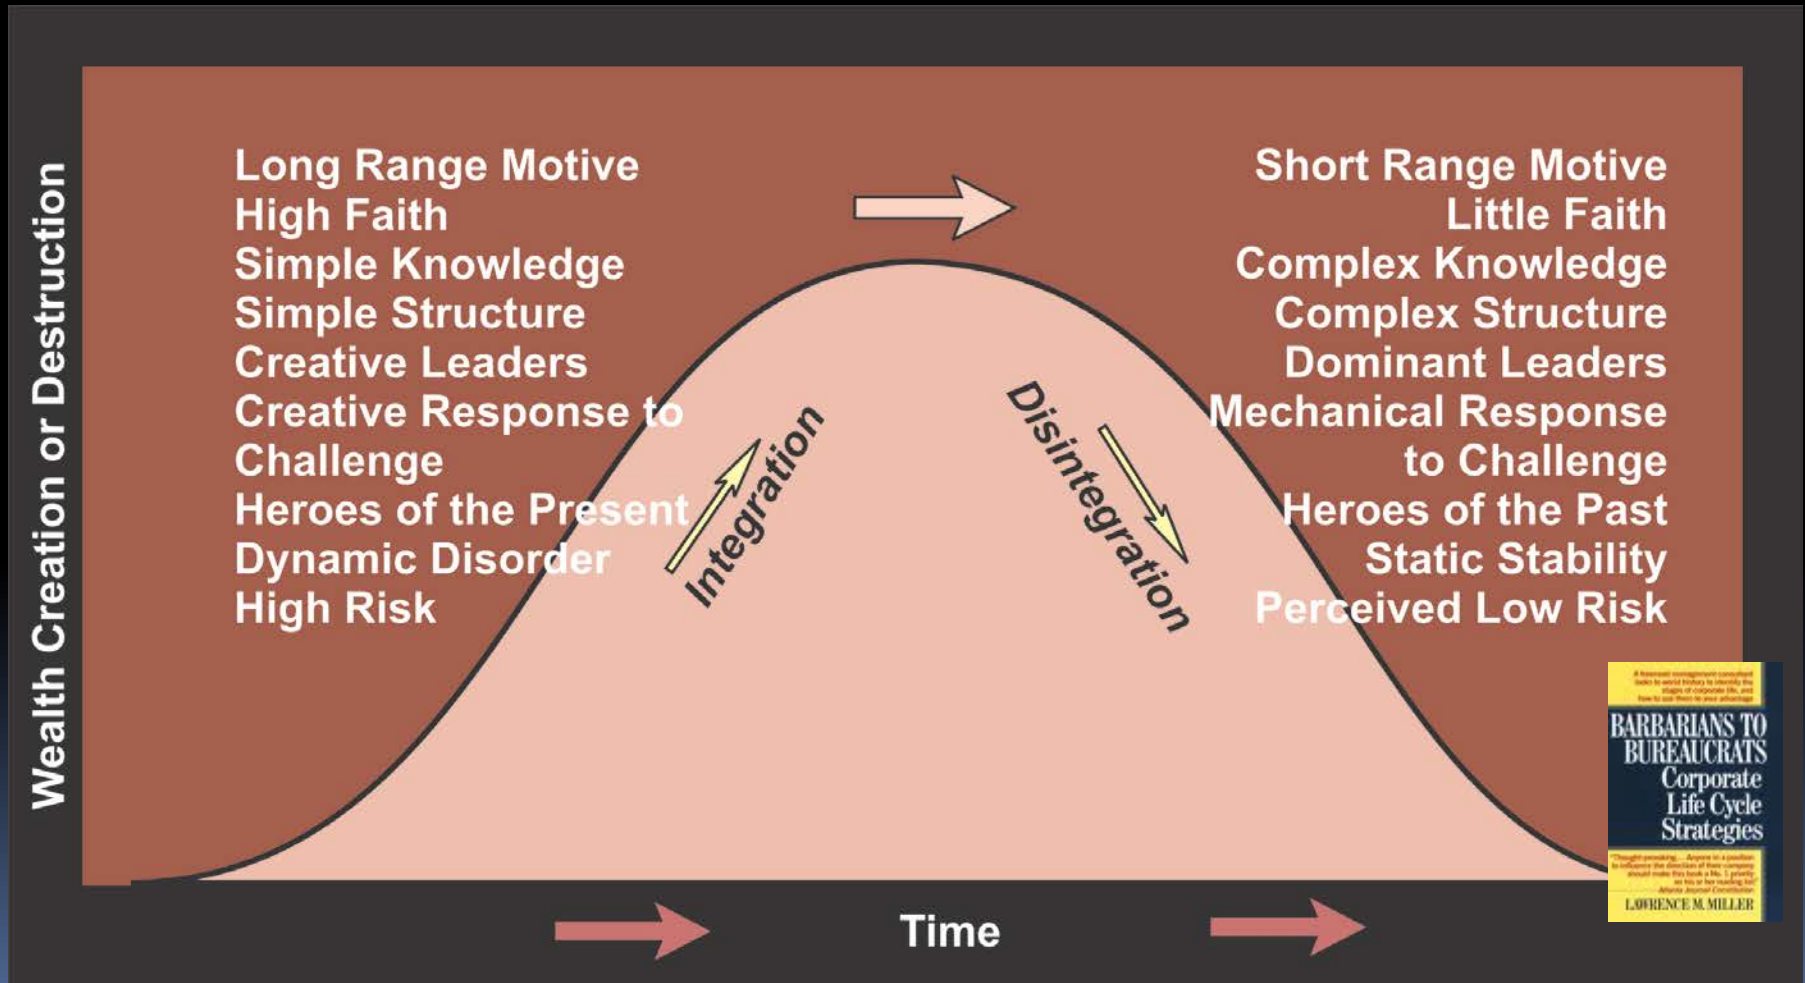

- Sometimes there are lessons for small systems in the behavior of big systems.

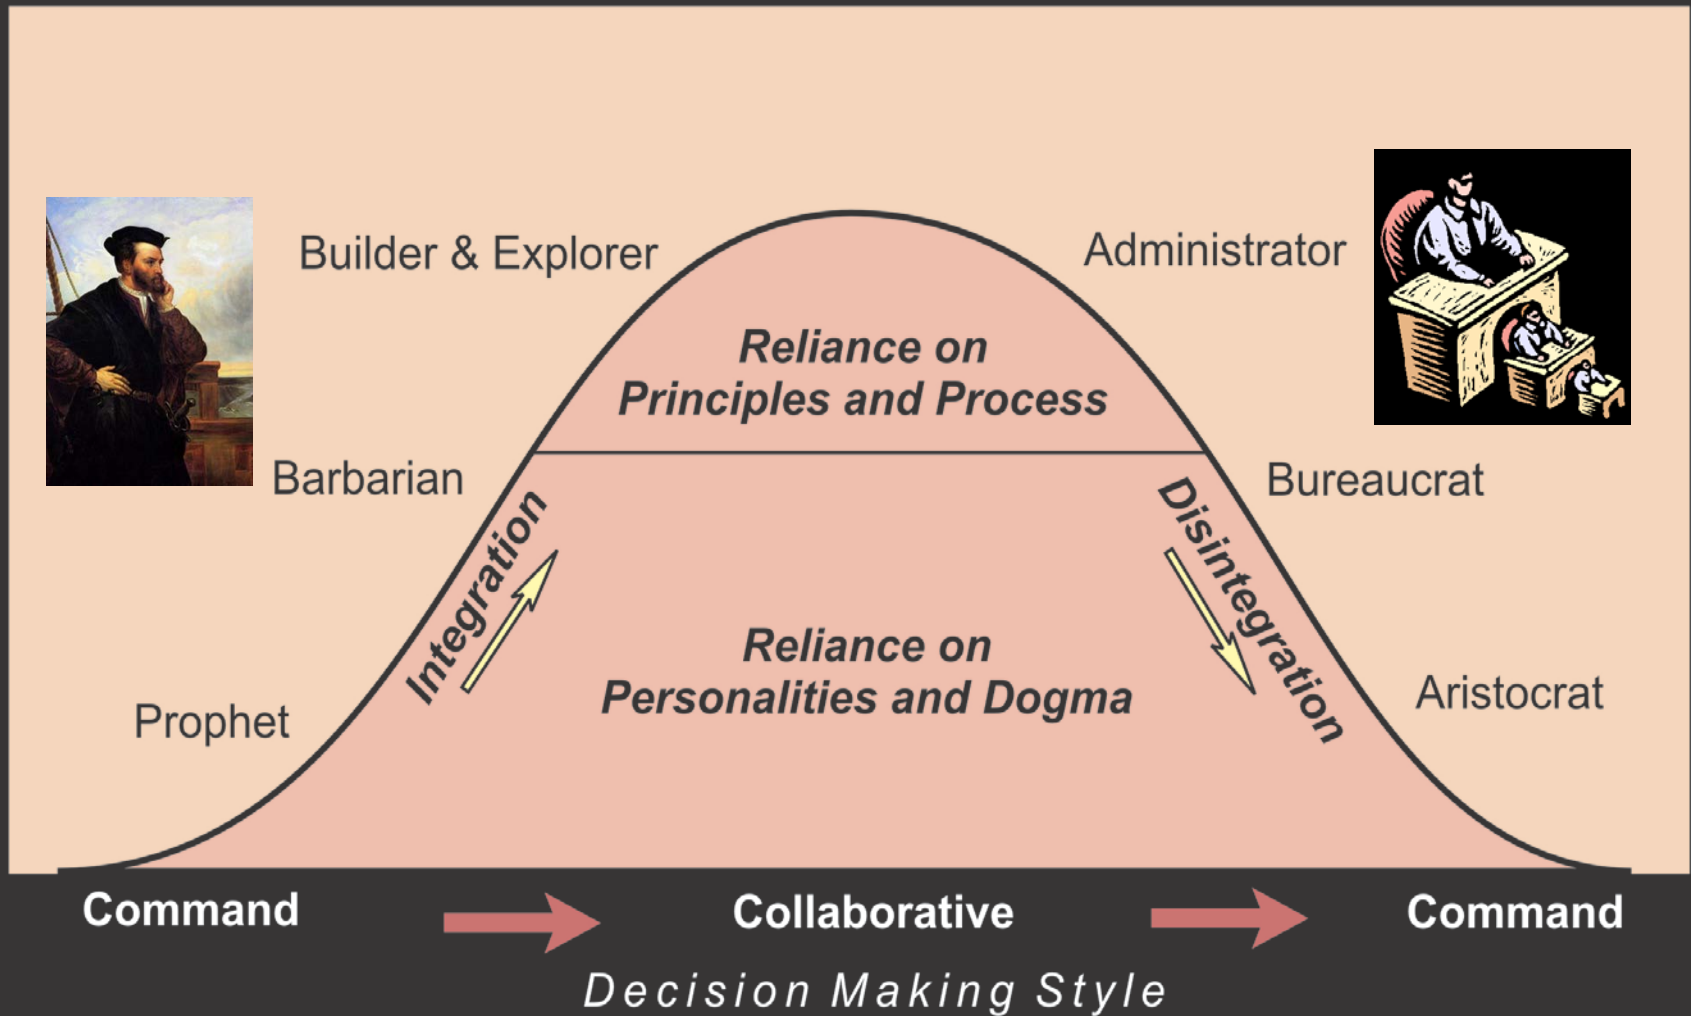

# The Dynamic System of Civilization

# Cultural Characteristics of Emergence and Decline

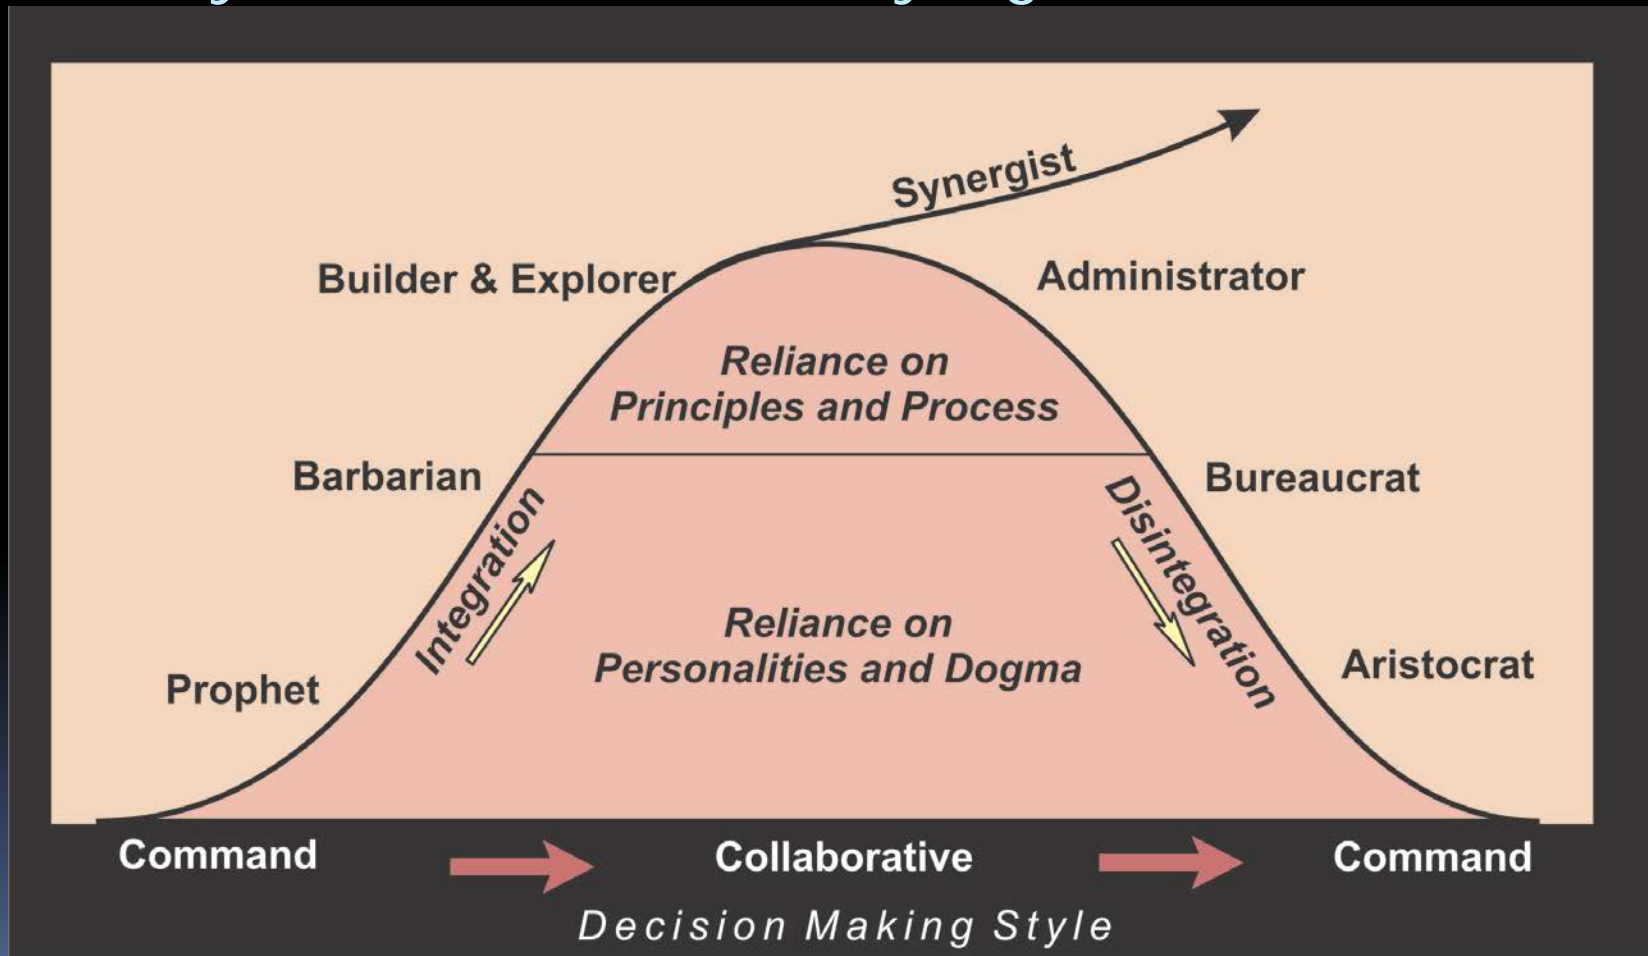

# The Life Cycles of Leadership and

# Is the Downfall Inevitable?

Or, Can We Achieve an "Ever advancing civilization, the day not to be followed by night?"

# The Real Capital of a Corporation, Person or Nation

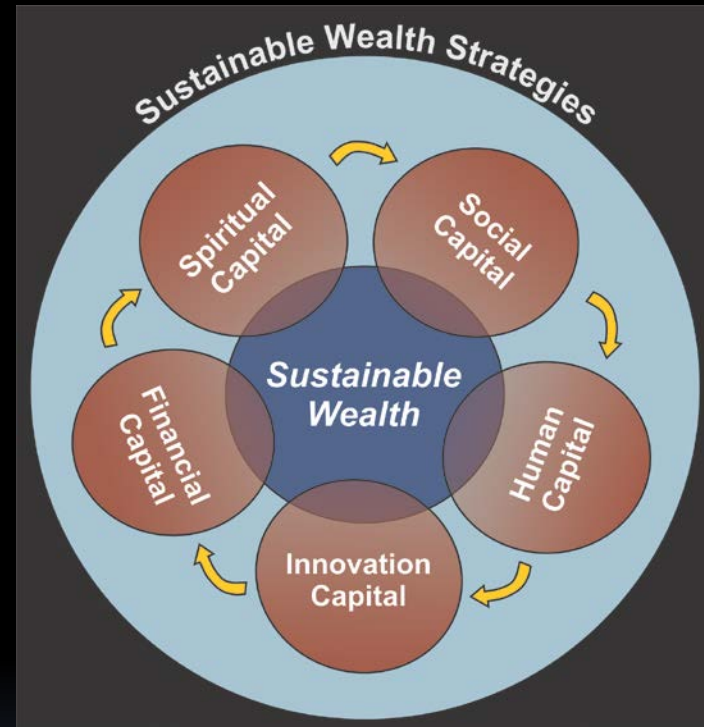

**Spiritual Capital:** The degree to which individuals are centered by higher purpose and lasting values.

**Social Capital:** The Level of internal and external trust.

**Human Capital:** The sum of human competence and motivation.

**Innovation Capital:** Innovation may be either technology (product), or process (how we make, deliver, service). The business of business is to innovate.

**Financial Capital:** The net of the financial assets and liabilities.

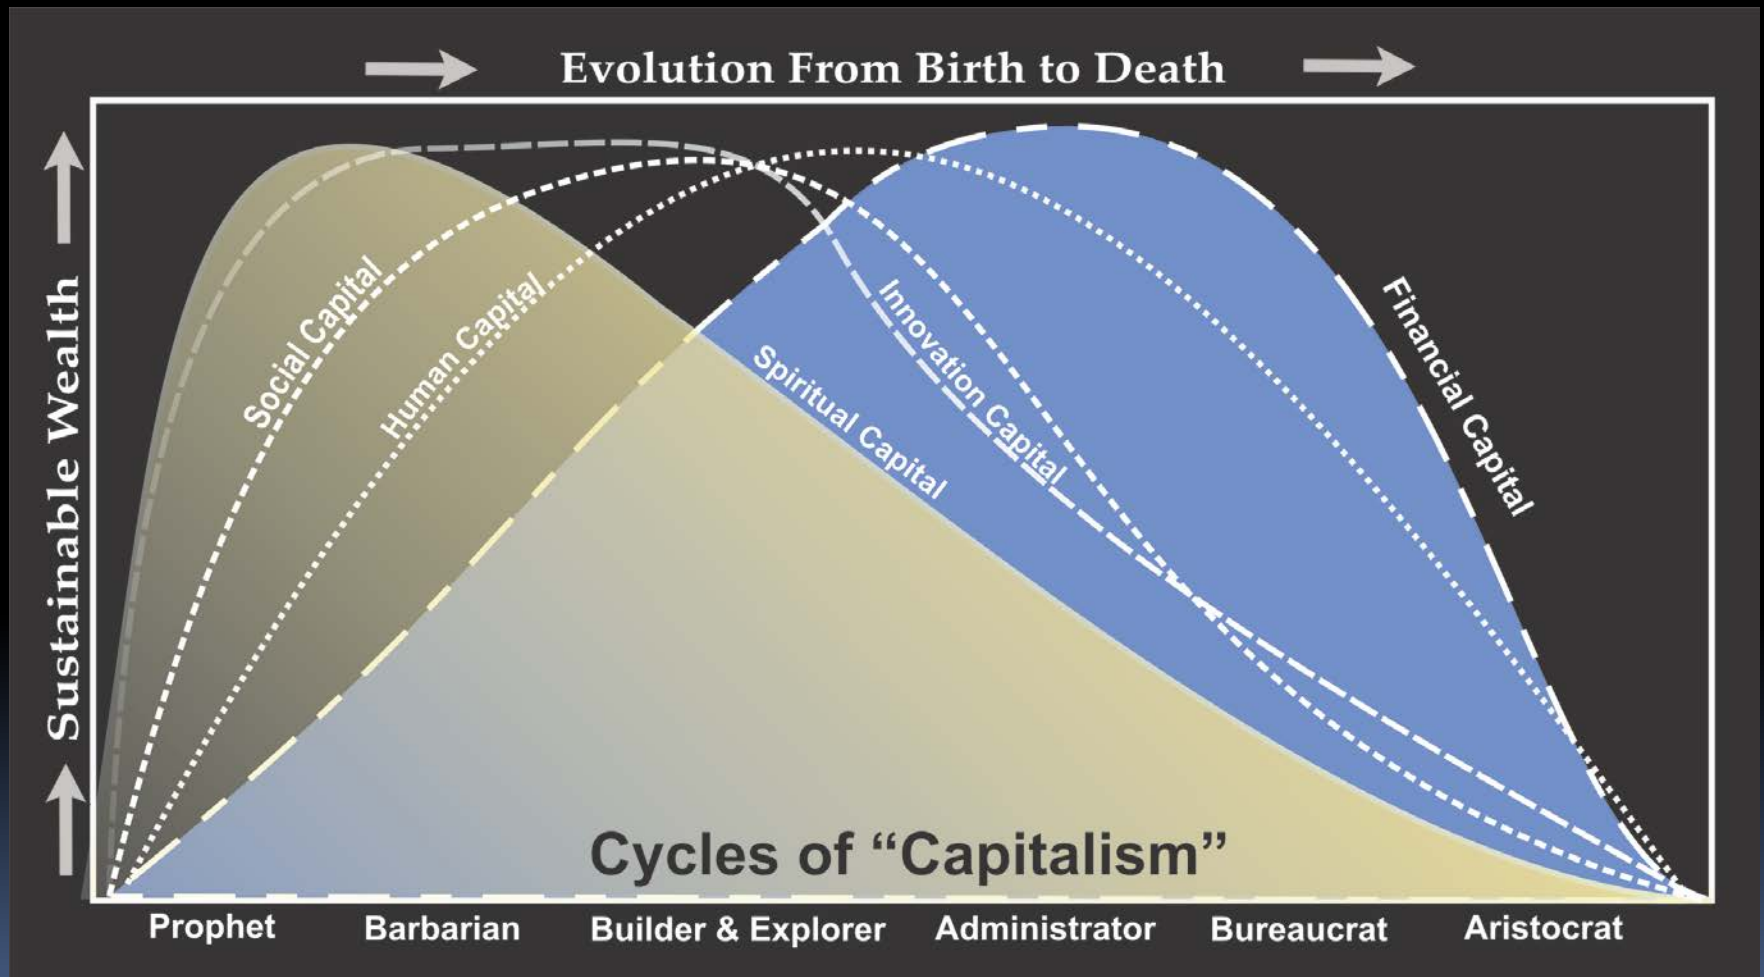

# Dynamics of Organization Assets and Liabilities

# How Capitalism Really Works

# In Summary...

## The New Productive Capitalism
